

# UK and Ireland Investment Report to 2015

The UK could emerge as the largest market for renewables, and installed wind capacity in Europe over the next five years. This report forecasts and qualifies developments in the wind industry by region and county right down to individual development opportunities and planned new wind farm installations onshore and offshore. The report contains over 70 primary data tables and figures which show exactly where future growth in the UK is likely to occur.

## REPORT CONTENTS

### Acknowledgements

### Tables

### Figures

### Executive summary

### Methodology

### National overview

#### British Isles wind capacity

Existing capacity  
Forecast 2010-2015  
Forecast of investment

#### Policy and targets

##### Targets

- EU directive
  - Emissions reductions
  - Renewables target
- UK targets
  - Emissions reductions
  - Renewables obligation
- Republic of Ireland targets
- Wind energy association targets

##### Financial support mechanisms

- Renewables obligation certificates
  - Changes made in 2010
  - Potential changes
- Republic of Ireland feed-in tariff
- Green investment bank
- Climate change levy and levy exemption certificates
- Capital grants
- Carbon trading
- Renewable energy trading
- Policies to support communities and councils

##### Grid

- Transmission policy
  - European policy
  - Ofgem review
- Distribution policy

##### Planning

- Planning process
- Planning appeals
- Environmental protection
- Wildlife and ecology
- Offshore planning
- Planning issues
  - Time to approval
  - Infrastructure Planning Commission
  - Regional targets
  - Right of appeal

#### Operating Environment

Electricity market  
Current generation mix  
Wind potential  
Public opinion  
Radar  
Ports  
Weather

#### Wind Industry

Major players  
Network costs  
Onshore networks

- GB grid queue
- Changes to grid access

Ofgem reform

- Distribution

Offshore networks

- New regime
- Rounds 2.5 and 3 and Scottish territorial projects

Onshore supply chain

- Turbine supply
- Component supply
- Skills

Offshore supply chain

- Turbine supply

Component supply  
Cable supply  
Turbine installation vessels  
Skills  
Ports

### Regions

#### Republic of Ireland

Policy overview  
Installations  
Policy differences  
Future policies  
Planning and grid access  
Operating environment  
Markets  
Power network  
Wind conditions  
Wind industry  
Investment opportunities

#### Northern Ireland

Policy overview  
Installations  
Policy differences  
Future policies  
Planning and grid access  
Operating environment  
Markets  
Power network  
Wind conditions  
Wind industry  
Investment opportunities

#### Scotland

Policy overview  
Future policies  
Installations - historical  
Forecast installations

#### Northern Scotland

Installations  
Planning and grid access  
Operating environment  
Markets  
Power network  
Wind conditions  
Wind industry  
Investment opportunities

#### Southern Scotland

Installations

Planning applications  
Operating environment  
Markets  
Power network  
Wind conditions  
Wind industry  
Investment opportunities

#### Wales

Policy overview  
Installations  
Policy differences  
Future policies  
Planning and grid access  
Operating environment  
Markets  
Power network  
Wind conditions  
Wind industry  
Investment opportunities

#### North-east England

Policy overview  
Installations  
Policy differences  
Future policies  
Planning and grid access  
Operating environment  
Markets  
Power network  
Wind conditions  
Wind industry  
Investment opportunities

#### North-west England

Policy overview  
Installations  
Policy differences  
Future policies  
Planning and grid access  
Operating environment  
Markets  
Power network  
Wind conditions  
Wind industry  
Investment opportunities

#### Central England

Policy overview  
Installations  
Policy differences  
Future policies  
Planning and grid access  
Operating environment  
Markets  
Power network  
Wind conditions  
Wind industry  
Investment opportunities

#### Eastern England

Policy overview  
Installations  
Policy differences  
Future policies  
Planning and grid access  
Operating environment  
Markets  
Power network

Wind conditions  
Wind industry  
Investment opportunities

#### South-east England

Policy overview  
Installations  
Policy differences  
Future policies  
Planning and grid access  
Operating environment  
Markets  
Power network  
Wind conditions  
Wind industry  
Investment opportunities

#### South-west England

Policy overview  
Installations  
Policy differences  
Future policies  
Planning and grid access  
Operating environment  
Markets  
Power network  
Wind conditions  
Wind industry  
Investment opportunities

## LIST OF TABLES AND FIGURES

---

### Tables

UK & Ireland: Market value of wind power equipment, 2010-15  
 UK and Ireland: onshore pipeline capacity by region, 2010-15  
 UK and Ireland: offshore pipeline capacity by region, 2010-15  
 UK & Ireland: Top wind power developers by installed capacity, Q2 2010  
 Service suppliers for wind power, UK  
 Service suppliers for wind power, Ireland  
 UK & Ireland: Turbine sizes, 2010-2015  
 UK & Ireland: On-grid prices for different energy sources, 2010  
 UK & Ireland: Market value of wind power equipment, 2006-10  
 UK & Ireland: Cost structure of wind turbines, 2010  
 UK & Ireland: Structure of the electricity industry, 2006-10 (billion kWh)  
 UK & Ireland: Market value of wind power equipment, 2010-15  
 UK: target for renewable energy as a percentage of all energy, 2011-20  
 UK and Ireland: installed wind capacity by region  
 UK and Ireland: 30 biggest installed wind farms by capacity  
 UK and Ireland: onshore pipeline capacity by region, 2010-15  
 UK and Ireland: forecast number of turbines required  
 UK and Ireland: offshore pipeline capacity by region, 2010-15  
 UK and Ireland: total (onshore plus offshore) pipeline capacity by region 2010-15  
 UK and Ireland: top 30 pipeline projects, 2010-15  
 UK and Ireland: leading pipeline offshore projects, 2010-15  
 UK and Ireland: wind capacity forecast, 2010-15  
 UK and Ireland: list of government targets  
 UK: greenhouse gas reduction schedule

Republic of Ireland: number of wind farms over 5MW with installed capacity by county  
 Republic of Ireland: constructed onshore projects  
 Republic of Ireland: constructed offshore projects  
 Republic of Ireland: developers of wind power pipeline  
 Republic of Ireland: onshore and offshore pipeline projects  
 Republic of Ireland: planned and operational capacity by type of developer  
 Republic of Ireland: pipeline onshore projects over 5MW  
 Republic of Ireland: pipeline offshore projects

Northern Ireland: number of wind farms over 5MW with installed capacity by county  
 Northern Ireland: constructed onshore projects  
 Northern Ireland: wind capacity in the planning process  
 Northern Ireland: developers of wind power pipeline  
 Northern Ireland: onshore and offshore pipeline projects  
 Northern Ireland: planned and operational capacity by type of developer  
 Northern Ireland: pipeline onshore projects

Northern Scotland: number of wind farms over 5MW with installed capacity by county  
 Northern Scotland: constructed onshore projects  
 Northern Scotland: wind capacity in the planning process  
 Northern Scotland: applications for transmission access  
 Northern Scotland: developers of wind power pipeline  
 Northern Scotland: onshore and offshore pipeline projects  
 Northern Scotland: planned and operational capacity by type of developer  
 Northern Scotland: pipeline onshore projects  
 Northern Scotland: constructed offshore projects  
 Northern Scotland: pipeline offshore projects

Southern Scotland: number of wind farms over 5MW with installed capacity by county  
 Southern Scotland: constructed onshore projects  
 Southern Scotland: wind capacity in the planning process  
 Southern Scotland: applications for transmission access  
 Southern Scotland: developers of wind power pipeline  
 Southern Scotland: onshore and offshore pipeline projects  
 Southern Scotland: planned and operational capacity by type of developer  
 Southern Scotland: pipeline onshore projects  
 Southern Scotland: constructed offshore projects  
 Southern Scotland: pipeline offshore projects

Wales: number of wind farms over 5MW with installed capacity by county  
 Wales: constructed onshore projects  
 Wales: wind capacity in the planning process  
 Wales: applications for transmission access  
 Wales: developers of wind power pipeline  
 Wales: onshore and offshore pipeline projects  
 Wales: planned and operational capacity by type of developer  
 Wales: pipeline onshore projects  
 Wales: constructed offshore projects  
 Wales: pipeline offshore projects over 10 MW

North-east England: number of wind farms over 5MW with installed capacity by county

North-east England: constructed onshore projects  
 North-east England: wind capacity in the planning process  
 North-east England: developers of wind power pipeline  
 North-east England: onshore and offshore pipeline projects  
 North-east England: planned and operational capacity by type of developer  
 North-east England: pipeline onshore projects  
 North-east England: constructed onshore projects  
 North-east England: pipeline offshore projects

North-west England: number of wind farms over 5MW with installed capacity by county  
 North-west England: constructed onshore projects  
 North-west England: wind capacity in the planning process  
 North-west England: developers of wind power pipeline  
 North-west England: onshore and offshore pipeline projects  
 North-west England: planned and operational capacity by type of developer  
 North-west England: pipeline onshore projects  
 North-west England: constructed offshore projects  
 North-west England: pipeline offshore projects

Central England: number of wind farms over 5MW with installed capacity by county  
 Central England: constructed onshore projects  
 Central England: wind capacity in the planning process  
 Central England: developers of wind power pipeline  
 Central England: onshore and offshore projects  
 Central England: planned and operational capacity by type of developer  
 Central England: pipeline onshore projects  
 Central England: pipeline offshore projects over 10 MW

Eastern England: number of wind farms over 5MW with installed capacity by county  
 Eastern England: constructed onshore projects  
 Eastern England: wind capacity in the planning process  
 Eastern England: applications for transmission access  
 Eastern England: developers of wind power pipeline  
 Eastern England: onshore and offshore pipeline projects  
 Eastern England: planned and operational capacity by type of developer  
 Eastern England: pipeline onshore projects  
 Eastern England: constructed offshore projects  
 Eastern England: pipeline offshore projects over 10 MW

South-east England: number of wind farms over 5MW with installed capacity by county  
 South-east England: constructed onshore projects  
 South-east England: wind capacity in the planning process  
 South-east England: applications for transmission access  
 South-east England: developers of wind power pipeline  
 South-east England: onshore and offshore projects  
 South-east England: planned and operational capacity by type of developer  
 South-east England: pipeline onshore projects  
 South-east England: constructed offshore projects  
 South-east England: pipeline offshore projects

South-west England: number of wind farms over 5MW with installed capacity by county  
 South-west England: constructed onshore projects  
 South-west England: wind capacity in the planning process  
 South-west England: applications for transmission access  
 South-west England: developers of wind power pipeline  
 South-west England: onshore and offshore pipeline projects  
 South-west England: planned and operational capacity by type of developer  
 South-west England: pipeline onshore projects  
 South-west England: pipeline offshore projects over 10 MW

### Figures

UK & Ireland: historical annual and cumulative wind capacity installations, 2006-Q2 2010  
 UK & Ireland: installed capacity, cumulative and by year, to Q2 2010  
 UK & Ireland: installed capacity by region to Q2 2010  
 UK & Ireland: cumulative wind power capacity by region 2006-10  
 UK & Ireland: market share of turbine manufacturers, 2006-Q2 2010  
 UK & Ireland: market share of turbine manufacturers, 2010-15  
 UK & Ireland: projected CAPEX, 2010-15  
 UK & Ireland: projected total market size, 2010-2015  
 UK & Ireland: energy generation by source  
 UK & Ireland: cost structure of wind farms  
 UK & Ireland: Wind turbine manufacturers: share of total capacity in UK & Ireland, Q2 2010  
 UK & Ireland: Wind turbine manufacturers: share of power capacity in UK & Ireland, sales, 2009
